There were also present a large number of the prominent members of the Church of the Covenant, the company, therefore, coming together under the happiest conditions, since all were so generally acquainted. Rev. Mr. Kelly, moderator of the conference, made the introductions to the President and Mrs. Harrison, who had to assist them in receiving Mrs. Parker, Mrs. Dimmick and Miss Breckinridge. The conservatories were all lighted, and the guests had the pleasure of a stroll there through the flower-lined walks. Among those present were Dr. Dennis of Syria, Rev. John Hall of New York, Rev. To the Editor of The Eventure Star:

Mr. A. G. Warner's (superintendent of charities) as takement as it appeared in The Star Wednesday evening conveys the idea that he was shut out from the board of managers of the associated charities on Tuesday evening or told that he was not wanted there. The facts are that Mr. Warner wrote me a letter in which he stated that he handed the Commissioners a recommendation, which, if approved, would prevent the associated charities from getting the \$1,000 allotment which it had last year, that his principal reason was that the association would be better off without it than with it, but that he had other reasons which he would communicate to the board of managers of the case of the burden of our government, but association would be better off without it than with it, but that he had other reasons which he would communicate to the board of managers would meet then and might consider his report. I mailed this Saturday. The following Tuesday I received a letter from him, stating that it would probably be better for him to meet the board. I made no reply to this, but about 7 o'clock in the evening he came into the office and I explained to him that some members of the board had suggested that it would probably be indelicate for us to injite him to remain, but he declined to do so and retired. One member of the board convened and then he could use his own judgment as to whether he should remain. I urged him to remain, but he declined to do so and retired. It is said by those who are familiar with the facts in the case, to which more or less publicity has been before the presbytery and the synod, that some portions of the record are unfit to be read before a mixed assembly.

W. A. Stevenson of this city said that while the complaint made by the speaker of the discrimination against corporations of New York state was great, it is not nearly so bad as in Washington, as the laws in regard to the regulation of corporations there are made by Congress, and are very severe.

The paper dealt principally with storage batteries and the progress made in the use of this kind of motive power. The batteries have been in use long enough on various roads to justify the prediction that good results are practicable in the near future.
